

Made in the UAE: EANAN's Drones Take Flight Globally

We're excited to be featured in **Khaleej Times**, where our Director International Business Development, Mashaal AlMarzooqi, shared insights on our cutting-edge drone platforms, strategic vision, and ambitious plans for the future. The feature offered an exclusive behind-the-scenes tour of our UAE-based, state-of-the-art factory, highlighting the R&D, assembly, and flight testing that drive our innovation. Proudly "**Made in the UAE**," the majority of our drone components reflect local expertise and advanced engineering.

From exporting our technology to connecting with clients across industries, EANAN is shaping the next generation of aviation and unmanned aerial solutions.

**From UAE to the World: EANAN
Leads in Advanced Drone Technology
